How do you feel about errors?

a) “Errors can be accepted as an indication of some kind of learning activity taking place.”

b) “Probably most teachers regard mistakes as a sign of failure either on the students’ part, or else on the teachers’ part.”

c) “The majority of the grammatical errors second language learners make do not reflect the learner’s mother tongue.”

d) “The explanation of causes of error is often highly speculative. We simply do not know exactly why learners make many of the mistakes they do.”
